Mr. Lloyd O. Cox
Vice President/Co-Owner
FPC Technology, Inc.
2399 S. Orchard, Suite 205
Boise, ID 83705

Dear Lloyd,

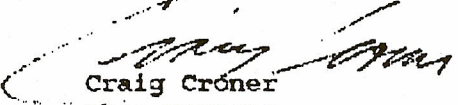

It has been one year since I started using your product. I will have to admit, I was very skeptical about any fuel additive with my engine and fuel injection background. However, FPC-1 has proven to be a step above the rest.

The first thing I noticed was engine smoke during start up was cut nearly in half, even in the colder months. I have also seen through our tests significant fuel economy gains.

Recently, we did a tune-up on a DT466, and after removing the injectors, we noticed very little carbon build-up on the tips. This probably would not be surprising for an engine that has been driven long distances; however, to see these injectors come from an engine that is driven in stop and go traffic, idling more than it should, plus having more than 95,000 miles on it is very impressive to me. FPC-1 has proven to be a real asset in our maintenance program.

Sincerely,

STEIN DISTRIBUTING COMPANY, INC.
